Professor Ralf Lucklum
Institute for Micro and Sensor Systems, Otto-von-Guericke-University Magdeburg, Germany

presents a series of lectures on:

1. Merging the ultrasonic and acoustic sensor principle. 23 November
2. Resonant Sensors: From macroscopic to microscopic scale. 30 November

The lectures will take place in the autumn term 2011/2012 at 10:15, in the lecture hall no. 230, the Faculty of Electronics and Information Technology Building.
